

STAT:2010/4200, Statistical Methods and Computing  
Spring 2016  
Instructor: Cowles  
Information on Midterm 3

- Midterm 3 will be given Fri. Apr. 29 in room 40 Schaeffer Hall during the regular class time.
- It will cover the following chapters of the textbook:
  - 19, 20, 21, 22, 23, 25
- ANOVA will be included; regression will not.
- Questions will be mostly short answer and multiple choice. Some will involve interpreting SAS output that I will provide.
- You may bring:
  - one 8-1/2 x 11 sheet of paper with your own notes.
  - the normal, t, and chi square tables from your textbook
  - a calculator
- Practice problems have been posted.
- Short answer questions and interpretation of computer output will be similar in style to homework problems. Doing unassigned textbook problem, including those from Ch. 22, would be an excellent way to prepare for the exam.
