

STAT:2010/4200, Statistical Methods and Computing
Spring 2017
Instructor: Cowles
Information on Midterm 3

- Midterm 3 will be given Fri. Apr. 28. Most students will take it at 11:30 in room 40 SH or room 22 SH. Those who cannot take it at 11:30 will take it at 12:30 in room 30 SH.
- It will cover the following portions of the textbook and class material:
 - chapters 19, 20, 21, 22, 23, 24, 25
 - material covered in class through lecture 23 and lab 9
 - homework through hw 11
- Questions will be mostly short answer and multiple choice. Some will involve interpreting SAS output that I will provide.
- You may bring:
 - one 8-1/2 x 11 sheet of paper with your own notes.
 - the normal, t, and chi square tables from your textbook
 - a calculator
- Practice problems have been posted.
- Short answer questions and interpretation of computer output will be similar in style to homework problems. Doing unassigned textbook problem, including those from Ch. 22, would be an excellent way to prepare for the exam.
