Information on Midterm 2

- Midterm 2 will be given Wed. Apr. 8.
- It will be an online quiz in the “Midterms” section of the “Assignments” page of the ICON site.
- You may take the midterm any time between 8:00 a.m. and 6:00 p.m. on Apr. 8. However, once you begin, you will have only 50 minutes to complete it.
- See more details about the midterm at the end of this document.
- Midterm 2 will cover the following portions of the textbook and class material:
 - Chapters 8-12, 14-17
 - material covered in class through lecture 15 and lab 6
 - homework through homework 7
- Questions will be mostly multiple choice and numeric. Some will involve interpreting SAS output that I will provide.
- You may use:
 - one 8-1/2 x 11 sheet of paper with your own notes.
 - the **random digit, normal, and t tables** from your textbook
 - a calculator
- Doing the practice problems and unassigned textbook problems would be an excellent way to prepare for the exam.

Midterm 2 will be taken on the honor system. Students are expected to complete the exam without using resources other than your single page of notes and the tables listed above. Once you begin, the midterm will be strictly timed to 50 minutes, so you will not have time to consult your textbook, lecture notes, the Internet, or friends. If you prepare well and make a careful note sheet, you should be fine.
