## Q25 - Are the topics of the talks related to your interests?

#	Answer	%	Count
1	Yes	33.33%	3
2	No	0.00%	0
3	Sometimes	66.67%	6
	Total	100%	9

## Q27 - For any areas you above you strongly disagreed or disagreed with, please explain how they could be improved.

The last question should be replaced by The course prepared me or the Comp Exam.

It does not make sense to have the seminar room reserved for exactly the length of the talks. These things will often go slightly over and it feels unprofessional to rush the speaker out of the room because a class is starting soon. Can we seriously not find a room to reserve for 1.5 hours after paying to fly a speaker across the country to give a talk? It is embarrassing.

#### Q23 - What is one thing you would change about the course? How would you change it?

We should ask speakers to make the talk more accessible.

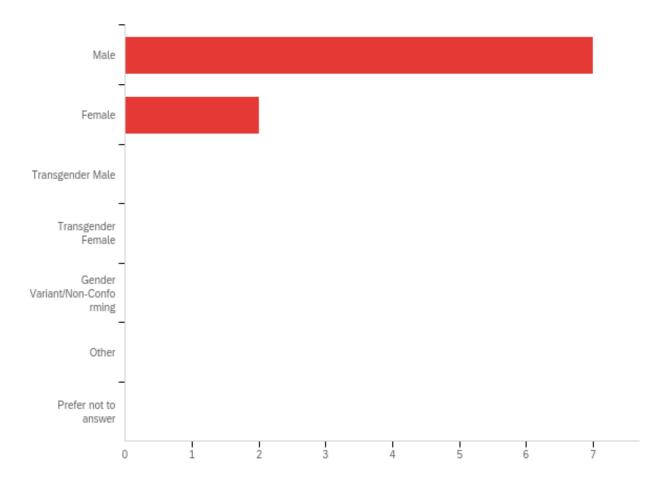

More female speakers!

I would reserve a room for longer.

#### Q25 - What other comments would you like to share with us?

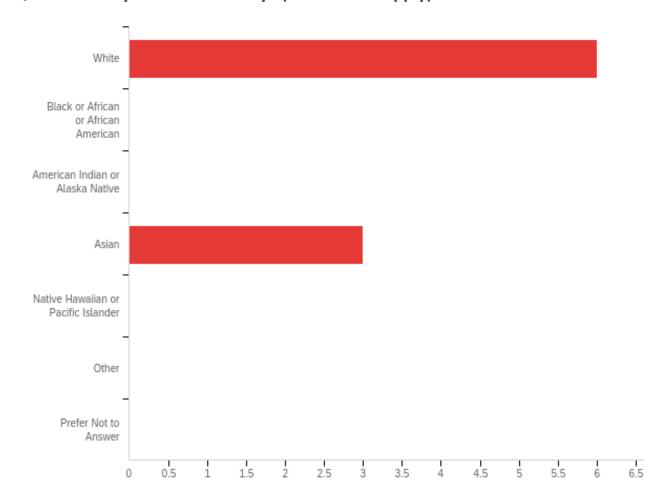

This seminar is a great opportunity to meet and interact with mathematicians. Thank you for organizing it!
