

# Conference schedule and format

## *Frontiers of Geometric Analysis*

Santa Cruz, CA, June 3rd-7th 2024

### Format:

The conference will be held in the Cetraro format, i.e., invited speakers will deliver concise **30-minute talks** followed by an extended open discussion period, during which the audience can ask questions and exchange ideas. This format will facilitate audience participation and enable a deeper understanding of abstract concepts presented in the talks.

Speakers are asked to plan their 30 minutes to present something that can inspire interactions during the workshop. A suggestion is to focus on motivating the subject in question or discuss open problems (or new directions) rather than going into details. But, of course, each speaker is free to structure the talk as they want within the 30-minute time frame.

### Schedule:

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
<b>9:30am-10:00am</b> Mazzeo	<b>9:30am-10:00am</b> Solomon		<b>9:30am-10:00am</b> Naber
